The level of support for nutrition education at the school ( 0-3 resources, 4-6 resources ), and The type of nutrition education training the teacher has received ( none, research on own, inservice, college coursework ). The classification variables level of support for nutrition education at the school and type of nutrition education training the teacher has received were constructed from information reported by teachers on their questionnaires. The level of support variable was constructed from responses to six questions asking about the availability of specific resources and policies in support of nutrition education at the school. Teachers reporting zero to three resources available to them were categorized as being in low-support schools; those reporting four to six resources were in high-14 support schools. The training variable was constructed from responses to four questions asking...
