Not illustrated. 1896 Excerpt: .day periods and their multiples, and, in order to test its practical value, forecasts of weather and temperature a week in advance were commenced by him in the Norfolk County Gazette in January, and the issue of a Weekly Weather Bulletin was begun the first of June which, at the close of the year, had several hundred subscribers. Mr. Clayton has described this investigation in the American Meteorological Journal for February, 1895. Mr. S. P. Fergusson completed the anemometer comparisons commenced in 1892, and the results appear here in Appendix G. Mr. W. H. Fergusson experimented successfully in cloud photography, and his photograph of Trade Cumulus was selected for publication in the International Cloud Atlas. The undersigned attended the meeting of the International Meteorological Committee at Upsala, in August, at which illustrations were chosen for an Atlas to contain colored plates of the Abercromby-Hildebrandsson cloud types,...
