Brand New Book ***** Print on Demand *****.Among all the commercial learning systems on the market today, how many are advertised as research-based? Perhaps it would be easier to count those that are not. Such claims are so widespread that they are seldom taken seriously by experienced educators. At times, however, marketing becomes clever enough to cut through the skepticism. The more extravagant the promises, it seems, the more credible the product becomes. This book tells the story of one such case: the Sheltered Instruction Observation Protocol, or SIOP.(r) Imagine a program developed by an obscure research center. SIOP starts out as a modest tool for evaluating the effectiveness of instruction for children whose English is limited, but soon morphs into something much more ambitious. It now purports to be a detailed lesson planning and delivery approach for grades K-12, aligned with state standards and tests. Simultaneously, it outlines a comprehensive design for teacher training and evaluation. Acquired by a major publisher, SIOP is advertised as field tested . scientifically validated . a proven pedagogical approach to teaching both content knowledge and language skills [that] has helped to instruct millions of students. The program s market is expanded far beyond the classrooms of English language learners. It is promoted as an effective model for English-proficient students as well, appropriate not only for K-12 but also for early childhood education, foreign language instruction, GED and adult English programs, and even two-way bilingual education. There are old-time patent medicines that made fewer claims. Is SIOP a truly miraculous pedagogy - good for whatever ails you? Or is it a classic example of research-based hype? The Trouble with SIOP(r) was inspired by a chorus...
