Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Cat-Tails: And Other Tales Whoever has to do with little children knows the delight they take in stories; he knows, too, that a marked characteristic of childhood is a lively imagination, a faculty which should be as carefully cultivated as the memory. It is hoped that these stories will be found useful for training the imagination, for leading the child to more intelligent observation of the phenomena about him, and for creating an interest in Natural Science. They have been used in connection with science lessons given little children, many of them containing ideas and opinions expressed by the children themselves during their observations and experiments. Thanks are due the following for stories and advice: Sara E. Wiltse, and Ginn Co., author and publishers of Stories for Kindergartens; Andrea Hofer, editor of Child-Garden; G. Anna Raymond; W. W. Speer, author of Lessons in Form; and Professor W. S. Jackman, teacher of science, Chicago Normal School.
